wedding videography

Digital Science

Digital Science strives to produce professional wedding videos that will be timeless. Using professional equipment, and the latest technology available, our packages are of the highest standard, that you would expect for this special event in your life.

We are a Melbourne based production company covering the Melbourne and regional areas. We will produce a video package, that you will be proud to show family today and into the future.

Your wedding day is one of the most important days in your life. There is only one chance to capture this special day. It's a day of romance, happiness and emotion that will last forever. With a video of your special day you can watch it over and over again.

Every wedding is different, with various needs. To accommodate this we deliver various packages to cover all needs and budgets. We can also customize a package that best suits your wedding day. Our videos packages combine highlights along with a documentary style video, covering the events of the day.

Digital Science

Wedding Video Packages

Digital Science uses high definition equipment, giving you better image quality for your wedding video. We use this equipment for all of our packages.

The difference between the packages is the editing time and number of final videos delivered.

Special Effects of your choice: Black & White, Slow Motion, Sepia, and Stills are included in all packages.

Your final DVD's are presented in high quality DVD cases.
(please see page 8)

For each package choose if you would like it shot in widescreen (16:9) or standard (4:3).

Image shot standard view (4:3)

Image shot in wide screen (16:9)
